C SERIES

CUSTOM SIZES FOR ALL BLIND TYPES

DESIGNED TO DISAPPEAR

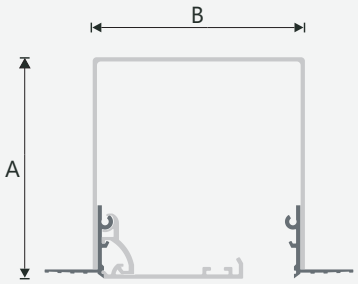

Blindspace® C Series boxes can be made to any size, to conceal all types of blinds, achieving minimal visual impact. The box is installed during construction with the space accessible for blind installation once the room is completed. It features the patented Blindspace® Safety Hinge that secures the cover in place and can be installed in any direction, together with side boxes to hide blind side channels and/or guide wires. Custom C Series boxes are used for very large blinds, double blinds, gable blinds and skylight blinds. C Series boxes can also be installed to future-proof buildings to have the option to install concealed blinds later.

Description

Concealment system to hide roller blinds or to future-proof windows for installation of blinds, with safety hinge that secures the cover in place.

Material & Finish

Aluminium, EN 6063 T6
Powder coated white RAL 9016, 30% gloss
Powder coated to specific RAL colour
Raw aluminium

FEATURES

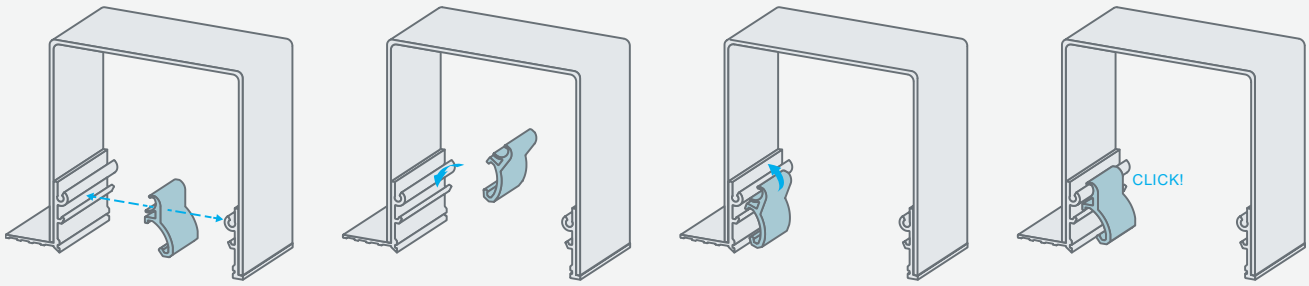

Seamless appearance after painting
Plaster is feathered over skim coat flanges to hide the box leaving only a thin hairline between the ceiling and the Blindspace® cover.

Cover painted to match window or ceiling
The cover can be provided in specific RAL colour or painted at site with primer and emulsion paint, to match window or ceiling.

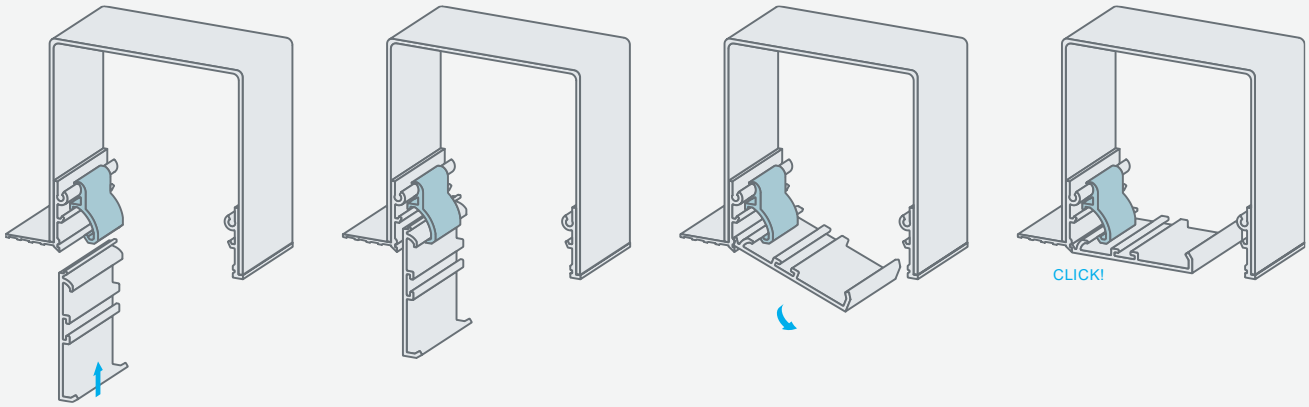

Safety hinge securing the cover in place
The safety hinge can be installed on either side of the box and ensure that the cover is not falling to the floor if accidentally opened.

Cut to finished length, maximum 6m
Blindspace boxes and covers are supplied by manufacturer cut to finished length or in 6m lengths. Splice pins and plates are supplied to align multiple boxes and covers.
